Inventory Reports - How to Generate

During the 2013 Statistical Sample inventory, you will need to run several reports on a regular basis. A successful inventory relies on the ability of the divisions/stewards to manage their assets in a timely fashion. The following reports will be the ones that will provide you with updated information on your division/stewards results.

Reports from the sunflower application

- ASRV6010 Review Campaign Base Assets
 - * List of all assets in the inventory that are still "Open"
- ASRV6050 Executive Review Resolution Summary
 - * Statistical information of "Open" and "Closed" assets

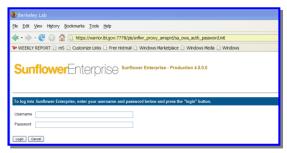

Reports from the barcode reader, once resolutions have been uploaded from MobileTrak

ASRV6090 Resolution Interface Processing Results
